Guard of 250 Men Will be Used Before And  
During Time Boys Appear Before Judge  
Caverly to be Told of Their Fate—Many  
Threatening Letters Received by Sheriff

CHICAGO, Sept. 9.—Nathan F. Leopold, Jr. and Richard Loeb, are ready to hear Judge John R. Caverly sentence them for the murder of their school boy neighbor, Robert Franks.

Tomorrow at 9:30 A. M., Chicago time, the two sons of millionaires will be led from the county jail under double guard to the criminal courts building where Judge Caverly will read to them his decision, sentence them and then order the proper officers to execute his commands.

When this procedure, expected to consume less than thirty minutes, has been concluded the boys will be taken back to jail, either to "murderers' row," where condemned persons await the gallows, or to the cells they have occupied since the first of June to await transfer to Joliet penitentiary.

The criminal court building will be surrounded by armed men hours before the time set for the reading of the sentence. The building will be filled with other guards, with bailiffs standing watch over every door. More than 250 men will comprise the detail assigned the scene, the personnel being made up from the sheriff's office, the city police department, the bailiff's office and the county highway police force.

## SUPERIORITY OF RACE DENIED BY CHICAGO EDITOR

Tells M. E. Young  
People Doctrine is  
All Wrong

BLOOMINGTON, Ill. Sept. 9. (AP)—Strength and fearlessness of the present day youth was extolled and the "Growth of the diabolical and consistently growing idea of racial superiority" was attacked tonight in an address by Paul Hutchinson of Chicago, managing editor of the "Christian Century" speaking at the Young Peoples Rally held in connection with the Illinois and Central Illinois Methodist conferences here.

"Youth frequently fails to show much sympathy with the prejudices of the past," Mr. Hutchinson said, "but it is not youth that denies history that has given oil concessions and made secret treaties in the years of turmoil following the war. It has been the Bourbon that has done this, the man that never forgets anything or never learns anything. It is the old men that bring us the burdens that are grievous to be borne."

Achievement of the world fliers in the first circumnavigation of the earth by air was likened by Mr. Hutchinson to that other young man who discovered America some 400 years ago. "At the present time there is nothing working more diabolically and yet more consistently than the idea of racial superiority. It is appalling that we have come to believe that we stand at the apex of the human race. As long as we come out of a civilization that considers it depreciable to man that he comes out of another race, we might just as well quit, stop in our work of preaching. It is the most imperative thing that faces us today. Even in the Orient the day has passed when you can show a man by the pigment of your skin that you are better than he."

Candidates for the ministry were examined today at the Central and Illinois Methodist conferences being held here and at Normal. Thousands of ministers and laymen from all parts of Illinois are here attending the sessions.

Candidates for the ministry were examined by the board of (Continued on Page 4.)

## SAY MINE LOSES IF UNION SCALE IS PAID MINERS

Collieries Owned by  
Locomotive Engineers Closed

INDIANAPOLIS, Ind., Sept. 9. (AP)—The Coal River Collieries company which operates coal mines in West Virginia and Kentucky and is owned by members of the Brotherhood of Locomotive Engineers, altho the brotherhood has no direct interest in the company, has refused to sign a wage agreement with the United Mine Workers of America because it cannot break even by operating under union demands, according to Warren S. Stone, head of the engineers and chairman of the board of the coal company.

Mr. Stone's statement was contained in correspondence over the situation between John L. Lewis, president of the miners' union and himself made public by Mr. Lewis here tonight. Until last April 1, the company owned by members of the engineers' Brotherhood operated its West Virginia mines on a union basis but refused to concur in the Jacksonville, Fla., agreement reached by members of the Central competitive field to continue the existing wages for three years. Since last April the mines have been closed.

Mr. Stone said that the Miners Union failed to carry out their agreement with his company while it was operated on a union basis and said that his company desired to continue operations last April and offered to continue existing wages until an agreement was worked out and to pay the increase if one was decided on. His company, he said, suffered loss of large contracts by being forced to close down when the men refused such an offer. He declared the mines had been closed rather than operate on a non-union basis.

Mr. Stone denied that the miners of his company are on strike, declaring that they are ready to return to work now. Calling attention to aid given by his brotherhood to the miners' union in cases of need Mr. Stone's letter continued: "The members of the Brotherhood of Locomotive Engineers, who have invested over \$3,000,000 in these properties are entitled to some return on their investment and I think you will concede this, and yet at the present price of coal is selling, and the Jacksonville agreement, it is impossible for the union mines to break even."

Under the Jacksonville agreement, he said, labor costs for loading a ton of coal are \$1.63 and the ton sells for only \$1.50. In reply Mr. Lewis denied that his union had broken any of its agreements with the collieries company against charges that the company owned and controlled by union men is cooperating with operators opposed to the miners' union and regarding production costs said:

"Your company occupies no different position in this matter than any other of thousands of coal companies which have agreements with our organization. The United Mine Workers cannot be responsible for problems of management in which they have no voice. The question of efficient management and low cost of production to enable you to remain in the market with competing companies is one that must be dealt with by your corporation. It is a problem that forever confronts one who elects to become a coal operator."

Mr. Lewis ended his letter by demanding that the collieries company negotiate an agreement with the union on the basis of the Jacksonville agreement. To this letter Mr. Stone did not reply and the correspondence is ended with a telegram from Mr. Lewis to Mr. Stone on September 3 asking Mr. Stone to reply to the letter asking that his company make an agreement with the miners union.

LOONEY ATTORNEYS TO  
FIGHT EXTRADITION  
Denver, Colo., Sept. 9.—Attorneys representing John Looney of Rock Island, Ill., late today are scheduled to begin a fight before the United States circuit court of appeals now sitting in Denver to resist an order of Judge Orrie L. Phillips, of the New Mexico federal district court directing his removal to Peoria, Ill., to stand trial under an indictment charging him with violation of the Dyer act. A decision is not expected in the case until several weeks have elapsed.

## Chilean President's Resignation Refused

SANTIAGO, Chile, Sept. 9. (AP)—The Chilean senate tonight declined to accept the resignation of Arturo Alessandri, president of the republic, which was tendered today at the request of the cabinet and the military group headed by General Almirante.

The vote was sixteen to eleven against acceptance. The chamber of deputies will not convene to take action on the resignation, considering that this would be useless inasmuch as the senate has rejected it. The new cabinet had presented to the senate a proposal urging acceptance of the presidential resignation and at the same time to permit President Alessandri to leave the country with his family and to confer on him the rank and pay of an ambassador.

It is considered that the senate's refusal to accept the resignation has made the political situation more difficult than it was. After the action of the senate this evening Alessandri sent the cabinet a note insisting that he be permitted to resign. Meantime he remains a guest in the American embassy here where he went early today after he had resigned.

When Alessandri quit the presidential palace General Luis Altamirano assumed the office of vice-president of the republic and took over the duties of chief executive.

## DAWES WILL SPEND NEXT THREE WEEKS THRUOUT NORTHWEST

Plans to Speak in Minnesota,  
South Dakota and  
Wisconsin

CHICAGO, Sept. 9. (AP)—Charles G. Dawes, Republican vice-presidential nominee will concentrate his speaking campaign for the next three weeks in the northwest under a decision reached today at a conference between Mr. Dawes and party campaign managers here.

The Milwaukee address to be delivered Thursday night by Mr. Dawes will be followed by a speech a week later at Sioux Falls, S. D., and by speeches the following week in St. Paul, Minneapolis and at some city in Southern Minnesota.

Definite dates were not determined. The vice-presidential itinerary was worked out at a four hour conference at National committee headquarters here attended by Mr. Dawes, William M. Butler, chairman of the committee and Representative Sanders of Indiana, head of the committee's speaker's bureau.

Mr. Dawes' desire to make only one address a week has met so far as the immediate future is concerned but an agreement was reached that beginning with the Minnesota trip a more active campaign would be waged by the nominee. The Southern Minnesota address may be given at Mankato, but definite arrangements were not possible today in regard to any of the dates owing to necessity of obtaining reservations on halls and other meeting places.

Chairman Butler previous to the conference declared plans were not now under consideration to send Mr. Dawes to the Pacific Coast.

Several tentative itineraries, including one involving a trip thru the Rocky Mountain states, were considered at the meeting between the nominee and the campaign managers, but no final decision was reached, and the subject will be considered again at the conclusion of Mr. Dawes' trips to the northwest.

Mr. Dawes will discuss the La Follette independent movement in his Milwaukee address but in the other speeches in the northwest he probably will devote considerable attention to the agricultural problem.

## HEAVY RAINS CAUSE TEMPORARY HALT IN FIGHT AT SHANGHAI

No Soldiers of Two Chinese  
Armies Allowed Upon  
Streets

SHANGHAI, Sept. 9. (AP)—Heavy rains which fell today have put a stop temporarily at least to the battles which have been in progress for a week past between the Chekiang and Kiangsu armies west of this city, for the possession of which the governors of the two provinces appealed to the force of arms. It is a tradition in China that Chinese soldiers will not fight when the situation is strong or rain falls.

From reports of eye witnesses and the Chekiang headquarters the rain came as the Chekiang armies were launching counter attacks at Liuhou on the Yangtze river and Hwangtu on the railway where they had previously repulsed Kiangsu attacks. Both counter-attacks it is claimed met with a measure of success. Meanwhile another Chekiang army is advancing from the south around Lake Taihu near Hing with Chang Chow, an important city on the railway as its objective, hoping here to cut the lines of the enemy.

To assist the marines landed from the foreign warships to protect the international and French settlements, the municipal council has introduced drastic orders prohibiting the appearance on the streets of any soldiers of the two Chinese armies.

Mrs. J. W. Hixson returned to Springfield yesterday after several days visit with Misses Katherine and Margaret Hogan on W. College ave.

## FEDERATION OF LABOR CONSIDER 50 RESOLUTIONS

Unemployed Insurance  
Among Those  
Wanted by Miners

PEORIA, Ill., Sept. 9. (AP)—Describing the recent meeting of coal operators with the Lions' Club of Herrin, Illinois, as "an open shop wage slashing conference," delegates from the miners local at Valier today introduced a resolution at the state federation of labor convention asking that steps be taken to counteract such attempts "to lower wages and break down the unions."

There was no session of the federation this afternoon the time being given over entirely for committee work. Fifty resolutions were before the resolutions committee. The one offered by the Valier delegates declared "the workers of Illinois are suffering from terrific unemployment especially the miners, from which no relief is in sight."

"The employers' resolution continues, 'are preparing to take advantage of this condition to lower wages and break down union conditions in Illinois. This necessitates wise council together of the rank and file and frequent councils of war of our forces, just as the employers are holding council among themselves, as witnessed in the Herrin 'open shop' wage slashing conference."

The resolution then requests the federation to call an unemployed conference of representatives of the various local unions and central labor bodies of the state "to launch a fight for unemployed relief, as a means for forcing the reopening of the mines and to lay plans for solving the unemployed problem."

A plan for "unemployment insurance" was proposed by Dan Thomas of the O'Fallon miners local. This resolution laid the blame for recent widespread unemployment to the action of Senator McCormick in introducing Senate resolution 363, which Delegate Thomas said resulted in the "deflation of industry causing a widespread industrial depression and reducing the farmers' purchasing power fifty percent."

"It is no fault of the workers," the resolution adds, that they are thrown idle. They are willing and anxious to work and should be protected in some way against enforced idleness. This is a social question."

Besides proposing that the legislative committee draft a law for unemployment insurance, the resolution asks temporary relief in the way of work on government projects. "We urge our state and national governments to further any extensive work on public projects by employing more workers at a wage paid consistent with the wages paid organized workers for similar work."

## DAYTON TO WELCOME ROUND WORLD FLIERS

DAYTON, O., Sept. 9. (AP)—America's world fliers will get a vociferous welcome when they reach Dayton, no matter how long they stay, whether overnight or simply to refuel their planes. Dayton citizens and officials of McCook Field virtually completed plans today for the aviators' reception.

McCook Field is home station for Lieutenants Erik Nelson and John Harding. Nelson regularly is a test pilot at the field and Harding's rating is reserve pilot and mechanic.

Lieutenant Leigh Wade formerly was stationed at McCook Field.

This is giving a touch of homecoming to the fliers' stop here.

## FROSTS ARE REPORTED THRUOUT NORTHWEST

CHICAGO, Sept. 9. (AP)—Light frosts have been reported in the last 24 hours from various points in the northwest with a killing frost at Park Rapids, Minn. In Chicago the temperature dropped to 47 this morning and a decline to forty was predicted for tonight. Frost warnings have been issued for sections away from the influence of the lake.

Temperatures at freezing or below were reported from Jamestown, N. D., 28; Libau, N. D., 30; Milbank, S. D., 32; Park Rapids, Minn., 32; Grand Meadow, Minn., 32, and Estherville, Iowa, 32.

## PRESIDENT GREETES EACH MAN QUIETLY BY GRIPPING HAND

Airmen Forced to Make Premature Landing  
Near Baltimore to Replenish Gas Used in  
Battling Strong Wind—New Orleans is  
Damaged and Left Behind With Mechanic

WASHINGTON, Sept. 9.—Wearied by an all day buck against head winds and fog delays, Lieutenant Lowell H. Smith, commanding the army world flight, brought his air cruiser Chicago to a safe landing at Bolling Field here today to receive a cordial greeting from President Coolidge and members of the cabinet. Boston II, substitute for the Boston, wrecked off Iceland, came in also with Lieutenant Wade piloting, but the New Orleans went down within 30 miles of Washington, just this side of Baltimore, with stripped timing gears and her pilot, Lieutenant Nelson, came on as a passenger in an escort plane.

A forced landing for the whole squadron of world cruisers and escort marred the flight from New York. The fliers ran into the fog just after they crossed the Susquehanna river and Aberdeen, the army proving ground in Maryland, and were signalled down to refill fuel tanks emptied in the long grind against a steady south wind that ranged from 35 to 45 miles an hour.

It was this that started the delays which kept the President and Mrs. Coolidge and members of the cabinet and their wives waiting for hours or more in the rain at Bolling Field.

No word had reached Washington ahead of the fliers of the accident of the New Orleans. When Lieutenants Smith and Wade arrived, the first word of the accident reached the public.

Lieutenant Nelson landed from the escort plane which carried him thru soon after his companions brought their ships to earth. He had very little to say of the accident to his ship. The regular bark of his motor became a sputter that forced him down with his escorting plane dropping beside him. A swift examination showed that the engine was "dead" until repairs could be made and Nelson signalled to the squadron above to go on without him.

"I'll say I was lucky," he said to those who pressed around him. "The same thing might have happened any time in the long trip, but it waited until I was in sight of repairs."

Harding Left Behind  
Lieutenant Harding, Nelson's mechanic, remained with the crippled cruiser, and repair parts were rushed out from Bolling Field by plane immediately.

Nelson said the engine would be examined and Harding would make repairs and bring her in tomorrow if nothing more than the engine is necessary. A new engine may not get in until the next day, and in any event it seems unlikely that the flight can be resumed for a day or two at least.

The fliers needed the rest after the flight against the wind from New York. The reception accorded them at Bolling Field was brief and quite informal. President Coolidge grasping each man of the world fliers group by the hand but making no speech of welcome or praise. General Patrick led them up and introduced them after the officers had come rigidly to attention and given their commander in chief the staff military salute.

The cabinet was in session when Mr. Coolidge received word that the fliers probably would be in around noon. He invited all members of his official family to accompany him to the field and when he stuck to his plan of greeting the airmen even though he sacrificed luncheon to do so, the cabinet officers followed his example. Later the officers' prepared meal and the "commander in chief" the secretary of state and a large number of other government dignitaries partook, among other things, of that old army standby "pork and beans."

The delay due to fog and the accident threw the reception plans badly out of gear. Knowing that the president was awaiting them, the airmen hastened their last jump from Aberdeen in every possible way, flying directly to Bolling Field.

Salute Delayed  
Even the salute batteries prepared to do them honor did not get word of the arrival until long after the machines were on the ground. At Bolling, the machines came down out of a veritable cloud of aircraft hovering above. The Chicago took the ground first followed in quick succession by the Boston II, and the escorting craft until the field seemed full of them.

The third shower of the day was coming down in earnest as the landing was made. Despite the rain, the president and cabinet members stood to welcome the air route pioneers and a dense mass of humanity was packed about the roped off landing field.

The official reception was brief. After the handshaking, Mr. Coolidge asked Lieutenant Smith to show him the Chicago and they strolled out together to gaze at the big cruiser. The material of the wings and propeller (Continued on Page 4.)

## BOND ISSUE FOR ROADS RECEIVES ADVISER'S O. K.

Conference at Kan-  
kakee Fair Approve  
Small Request

KANKAKEE, Ill., Sept. 9. (A. P.)—The proposed \$100,000,000 hard roads bond issue, which will be submitted to a referendum of the voters of Illinois at the November elections, was today unanimously approved by the state board of highway advisers, meeting in conjunction with a hard roads conference at the Kankakee Fair.

Governor Len Small, who called the conference, Colonel C. R. Miller, director of the state department of public works, and buildings and Frank T. Sheets, state chief highway engineer, addressed the conference which was attended by more than 2,000 persons from various parts of the state. The road advocates were the guests of the governor at Hard Roads Day at the fair, which this year supplanted Republican Day.

Members of the state board of highway advisers are: Senator Richard Meents, Ashkum, chairman; Charles H. Hays, Chicago; F. R. Woelfle, Vienna; Arthur Hall, Danville, and J. M. Page, Jerseyville.

The conferees were informed that an Illinois road building crew with one mixer has established a national record when it laid 2,671 square feet of eighteen foot pavement in one day, and another when it laid 10,465 feet in one week.

## MANY KILLED IN HAWAIIAN STRIKE

HONOLULU, Sept. 9. (AP)—Four policemen and eleven Filipino strikers were killed today in a fight at the town of Hanapepe on the island of Kauai, according to advices received here this afternoon. Deputy Sheriff Crowell is also reported to have been seriously wounded.

The fight occurred when the police attempted to rescue two Filipinos who continued to work when a strike was called on the McBride plantation at Hanapepe and had been kidnapped by the strikers as they were returning to their homes yesterday.

Crowell who is in the Makaweli hospital wounded in the head is expected to recover.

If you made a promise, even weeks ago, to take your small son to the circus today, you can bank on it that you will be reminded of that promise. No child is so small that he fails to have a circus memory.

Down at Herrin and in all Williamson county the basic trouble is the lack of community spirit—a willingness to co-operate. But how to better that situation is a big question. Thus far no one has been able to suggest the adequate remedy—that is, how to bring the needed community spirit into being.

In court in Aurora a man convicted of chicken stealing was

given a 20 year sentence in the penitentiary. When you think about the light sentences that are often imposed upon those who commit murder there is no wonder that complaints are made about inequalities under the law.

Farmers they keep saying, have reason for a feeling of satisfaction over the better prices for all products and the increased buying power of their dollars. There is still greater reason for satisfaction over land values. During the period from 1910 to 1920 there was an increase of almost 80 percent in farm values and the slump since 1920 has been 27 percent. So the farmer can find satisfaction in comparing his present condition with that of 1910 and remember also the immediate prospect of an increase in the price of farm lands.

For the first time in history Illinois Methodist conference and the Central Illinois conference are in session at the same time in adjoining cities, and there will be various joint programs. At the same time the state convention of the Christian church is being held here in Jacksonville.

That these gatherings are in session brings to mind the recent statement of a Jacksonville minister. He said that a few years ago the average church counted a successful year in which it increased its membership by securing additions from another church. Now the situation is different and as the lines of denominationalism grow dimmer the effort is made to secure the influx from outside the church.

International trade between nations is steadily increasing—getting back toward normal after the wartime upset. It's difficult to tell just how much on account of the almost constant changes in foreign money values. But, in the first six months this year, the tonnage of exports from seven leading countries showed a gain over the corresponding period of 1923, and in imports five gained while only two dropped.

The ploughshares, beaten from words, will soon be as busy as ever.

been held two or three times, everyone knows for which spot to run when the alarm sounds. But this does not mean that after they have become properly drilled the captain or chief engineer is going to set fire to the boat. It means to prevent demoralization in case the vessel should accidentally take fire and it become necessary to abandon it.

On a much larger scale, this is the idea of "Defense Day." Each man should know his proper place in case a call to arms should come. He doesn't want to get in the way of the other fellow, as the War Department did when it started to bid against the Navy Department for steel in 1917 when we declared war against Germany. He knows that the springing of a "million men to arms in a single night," as stated by William Jennings Bryan a few years ago, is a patriotic thing to think about but utterly impossible efficiently to handle. "In return for this work," said Secretary of War Weeks, in his address to the American Patriotic Organizations recently, "each community will learn, and each citizen can learn, the individual task called for on their part, should another crisis unhappily occur."

The argument of the opponents of the "Defense Day" is that it will alarm all the nations of the world is not borne out by the press comment of any of them—the European press hardly mentions the matter. The argument against its military value is answered by the views expressed in its favor by those who make arms a profession. The argument that our security is unchallenged is the same that was used in 1914-17, and as Secretary Weeks points out "if we can not improve our defensive organization when our security is not threatened because it is unnecessary, and if we cannot improve it when it is threatened because it will precipitate an international crisis, when is the country to provide for national defense?"

## FARM BUREAU NOTES

County Agent G. B. Kendall was at Asbury church last night and showed several reels of pictures relating to tuberculosis. Tonight Mr. Kendall will show films at the Hopewell school north of Concord and Thursday night at Lake View school house in the Bluffs neighborhood.

It will be only a little later when the tuberculosis testing work among cattle will be begun by Dr. T. K. Jones. This work will be done by agreement between the owner of the livestock and Dr. Jones, who is operating under agreement with the county board. If an animal is found to have tuberculosis the owner receives the amount of money paid for the salvage and in addition two-thirds of the appraised value of the animal. The funds for this purpose are made available by the U. S. and the state of Illinois.

## WHAT DO YOU DO BEST?

BY ALBERT APPLE

On a camping trip, Rodger Dolan fished five days for salmon trout—and couldn't even get a strike. He was deep-trotting, about 100 feet down. An Indian, bribed with \$5, took Dolan's outfit, led the line so it would sink only 75 feet. Then he cut off a minnow tail and tied it with thread in among the hooks of his "wobbler" troll—to make it look like the tail of a shiner.

Promptly—Eighteen salmon trout took the bait in a day. Dolan's comment: "Well, the Indian ought to be able to catch fish. He can't do anything else."

Specialization is what gets results. A man who holds the world record in running or any other athletics usually can't do anything else. He hasn't time to do anything else. Keeping trained in his specialty busies his body and brain to the limit of action.

So it goes in nearly every pursuit of life.

There's an old saying, that we're all fools outside our own businesses. A few generations ago, when America was sparsely populated and settlers were scattered through the wilderness, every man had to be more or less of a handyman or Jack-of-all-trades except in cities where he could specialize.

Specialization is an outgrowth of community life. It was discovered, for instance, that one man made better shoes than any one else in town, and made them faster. Obviously, it was foolish for him to devote his time to anything except shoe making.

Another man could saw boards and drive nails faster. He specialized at building. And so on, until nearly every man became a specialist, trading the products of his toil for things he needed that others could make faster and better than he could.

The tendency toward specialization has increased with the passing of time. We talk about ours being an "age of specialists." And yet, in our increasingly complex civilization, specialization has barely started.

When the lads of today mature to manhood, life will be many times as specialized as now. The boy who is allowed to drift along without any definite idea of what he wants to specialize on later, will strike out into the world for himself under a great handicap.

But a greater handicap lurks in the danger of parents opposing the line of work their instinct gravitates him to—trying to make a natural-born lawyer, for instance, become a doctor.

**Diseased**  
The trouble isn't so much that we have too many laws, but that too much time is wasted enforcing the wrong ones. Here a case. Every community has an ordinance against spitting on sidewalks, in street cars and other public places. Few local regulations are more important, yet how often is the expectorator arrested?

If you can think of anything that should be safeguarded more than the public's health, trot it forth. The victim of the most terrible contagious diseases can spit all over the walk without much danger of arrest. But just let him get caught buying a flask of whisky or violating parking rules.

**Russia**  
Russia's harvest of leading grain crops this year will be about the same as last year, claims the Soviet government in an official report. Last year's crops were sufficient for home needs and in addition furnished considerable for export. There'll still be famine districts, just as India exports wheat and China ships out eggs during the worst famines. There is very little patriotism in commerce, though a lot of oratory about it.

**Beer**  
More beer is drunk by the average person in Bavaria than any other country—67 gallons a year for every man, woman and child. That's about a pint and a half a day apiece. It seems rather temperate to a nation whose national drink for generations was corn or rye whisky.

## H. F. WALKER LONG IN COMPANY SERVICE

Plant Chief of Illinois Telephone Co. Is Now Manager of White Hall Exchange—Family Reunion at White Hall

White Hall, Sept. 9.—The office of plant chief of the Illinois Telephone Co., has been moved from Jacksonville to White Hall with the return to this city of H. F. Walker, who in addition will have the management of the local exchange. Mr. Walker was a mere boy when he first began his telephone career with the first construction of the Illinois Telephone Co. into White Hall, and he now holds the distinction of having been with the company longer than any other person now connected with it, either as an official or an employee.

As plant chief he has charge of all new construction and changes, as well as the difficulties arising from storms and miscellaneous phenomena. His transfer to White Hall is mainly on account of the large amount of construction work planned for this part of the system, but he declares he has made his last move. The cable for the reconstruction at White Hall will be on hand by October 1st. This will provide a cable line 3.3 miles, ending at the intersection of the Hillview road with the road to Drake, and a new pole lead will be provided for this stretch. A new cable line will also be built between Roadhouse and West Roadhouse. Rebuilding operations have been completed at Jacksonville, Alexander, Carrollton, Roadhouse, and parts of Murrayville and Manchester.

A family reunion was held at the home of Mrs. S. D. Chapin Friday, August 29 in honor of her 80th birthday. Those present were: T. A. Chapin and family, H. A. Chapin and family of Jacksonville, L. J. Green and family, Davenport, Ia. Rev. and Mrs. T. B. Legg, LeRoy, Mrs. Sybil Fox, Winchester, Dr. W. T. Knox and family, J. H. Fox and family, W. C. Chapin, Miss Edith Chapin, this city.

## ED WILLIAMS' TENT SHOW PLAYS TO LARGE AUDIENCE

The Ed Williams Stock Company presented its second offering of the week "Bad Wives" last night under the big tent in the rear of the Post Office to a large audience.

Tonight they are presenting the great laugh play "The Sheriff's Bride" which has been enjoying such a successful run throughout the country. There will be plenty of singing and dancing between the acts.

On Thursday evening they are offering their feature play of the week "Why Girls Go Wrong." This play deals with out great army of disappearing girls and has been very favorably received wherever it has been played. It is sensational and a startling but true to life. It was written at the request of the late President Wilson during his first administration at a time when considerable investigation was being made relative to that subject. It is the official play of the Rockefeller Investigating committee of New York City.

George A. Litter, who has been in Jacksonville visiting J. F. Shreve and Dennis Schram, has returned to his home in Blackburn, Mo.

## LITER REUNION IS HELD SUNDAY

Many Members of Pioneer Morgan County Family Are Present at Family Gathering

The members of the Litter family held their second annual reunion at Jacksonville's beautiful Nichols park on Sunday, Sept. 7. About two hundred were present to enjoy the day in social conversation, greeting relatives from distant communities, and there was also much reminiscing among the older people. And there was many things of interest to be recalled in the history of this large family, the first of whom came to Illinois in 1839 and were pioneer settlers of Morgan county. At noon the bountiful dinner was spread.

After dinner the meeting was called to order by the president, J. A. Litter. A genealogical sketch of the family was read. This had been prepared by Mrs. Homer Lewis assisted by Mrs. Mattie Lillard Dunavan, Mrs. J. E. Underbrink and Mrs. Parrie L. Burton.

Election of officers, to serve for the year 1925 were: President, J. A. Litter; secretary, Lora D. Petefish. It was voted to hold the next reunion on the first Sunday in September, at Nichols park.

Among the relatives from a distance were George Litter and sister, Mrs. Mattie L. Dunavan, Blackburn, Mo.; Miss Neva Butler, Vandalia, Mo.; Mrs. P. L. Burton, Chicago; Sam Coons and family, St. Louis; Mrs. Inez Massey Knowles, Columbus, O.; Mrs. Eva B. Rist, Omaha, Neb.; Mrs. Kate Louden, Salinas, Cal.

Aunt Lucy Deaton, aged 83 years, was the oldest member of the family present and Russell Albert Young, aged two months, son of Mr. and Mrs. Willard Young, the youngest.

As a closing number on an afternoon's program the family joined in singing "God Be With You, Till We Meet Again," in honor of Aunt Lucy Deaton.

Those present were: Mrs. G. T. Litter, Mrs. Mary Cooper, Mrs. Earl E. Cooper, Mary Carlene Cooper, J. E. Underbrink, Mrs. C. T. ## DISCIPLES CONSIDER EDUCATIONAL PLANS

Convention Gets Down to Business  
on First Day and Hears Ad-  
dresses and Reports.

The 74th annual convention of the Disciples of Christ in Illinois which opened its sessions here Monday evening, got down to real work yesterday and ran off its first day's program on schedule time. All day visitors kept coming into the city, until the delegation numbered at least three hundred late last night. The reception committee, under direction of Rev. M. L. Pontius, cared for the visitors with ease and facility.

The program yesterday was largely concerned with Religious Education, and practically every address and report concerned some phase of this branch of the work. W. E. M. Hackleman led the song services which opened every session, and in the evening the singing was especially good, as the audience was larger than at any other time in the day.

At the evening session Dr. H. H. Peters, secretary of the Illinois Christian Missionary society, gave his annual report of the field and office work of that organization. The society has done a tremendous amount of work during the past year, having had three evangelists in the field, who have held forty-one meetings and added 1116 members to the various churches in the state. More than 22,000 pieces of mail have been sent from the office, as well as over 30,000 pieces of literature concerning the mission work and program of the denomination. During the coming year the society expects to keep three men in the field, have a force of 25 workers, and keep the twelve mission pastors of the state busier than ever before. Eight new churches are to be dedicated in the next few months, and two new churches are expected to be organized thru the co-operation of two more churches in the same cities.

The society also expects to employ a man in five counties in southern Illinois, including Williamson county, to re-establish several Christian churches and organize new work. Dr. Peters stated in his address that the reports of trouble in that section have been a disgrace to the Christian citizenship of the counties concerned. He is confident that industrial peace will come to that section and wishes to have the work of the Disciples well under way there when it comes.

The evening session closed with a stereopticon lecture on the historic development and present condition of Eureka college, given by the president, Dr. Bert Wilson.

Dr. Cleaver Speaks.  
One of the outstanding addresses of the morning session was an address by Dr. T. S. Cleaver on "Where Shall We Teach the Bible, in the Public School or in the Church?" It was the speaker's sentiment that the Bible should be taught in the church, thru the medium of a week-day school of religious instruction. He distinguished between the reading and the teaching of the Bible in the schools, saying that there were a number of plans for the solution of the problem of giving children the requisite religious knowledge. Some people would open the schools to the pastors of the various churches, who would teach their respective creeds. This, Dr. Cleaver explained, would let into the public schools the representatives of more than 200 sects in this country, and would ruin the schools. After discussing various other plans, he drew the conclusion that a week-day school of religious education conducted by the church would solve the problem. He deplored the fact that much of the promotional work for religious education in the local church has been thrust upon the pastor, burdening him unnecessarily. He challenged the churches to rise to the occasion and meet the problem with additional workers. He said that it is no wonder the churches do not have a prophetic ministry when the pastors have to devote so much time to other than purely ministerial duties.

The program of the convention for today as follows:  
A. F. Wicks, of St. Louis, will appear at 11:15 this morning instead of tomorrow morning, with his address on "The Gospel of Architecture." He will exchange places on the program with Rev. Pontius.

## CONVENTION BRIEFS

A fifteen-minute prayer session was the impressive closing feature of the convention session yesterday afternoon. The meeting was not on the regular program, but as this ran ahead of the schedule, the delegates derived much spiritual benefit from using the extra time in prayer.

The address on the Knox P. Taylor chair of Religious Education was delivered at the Tuesday morning session by Rev. Charles Darcy, instead of Rev. Robert M. Hopkins. Dr. Darcy outlined three reasons for establishing such a chair at Eureka college: first, that men and women might be professionally trained for the work of the ministry and the church; second, that the students might be trained for the work in their local churches, and third, schools thruout the state might be touched by the program of religious education.

"Of the 600,000,000 young people in the world, about 500,000,000 are not being reached with religious teaching. Fully 55,000,000 people in the United States do not go to church, and they are not encouraging their children to seek religious training,"—Rev. Darcy.

The spacious lecture room of Central Christian church has been fitted up as a rest room for the convenience of the visitors. Booths have been arranged in the alcoves around the sides, and some attractive displays are in evidence.

The ladies of the local church are serving delicious meals in the church dining rooms, which are greatly appreciated by the delegates.

A speaker that greatly pleased the convention audience yesterday afternoon was Rev. R. Wells, colored evangelist to the negroes of Illinois among the Disciples. Rev. Wells had a quaint way of getting across a gospel message, and he affirmed his faith in the whole Bible. He took the place on the program which was to have been filled by Rev. L. H. Crawford, Rev. Wells was introduced by Mr. Fred Jones.

"Of the 1,200 members of the faculty of the University of Illinois, I do not know of one who is not a member of some church. In all my student and teaching experience, I have never heard a college professor speak disparagingly of the Christian religion,"—Dean Charles M. Thompson, Urbana.

"The book of Genesis deals with the facts and forces in the midst of which man has to live,"—Prof. George E. Moore, Eureka.

"When Man dethrones God and entones himself, there is always a fall,"—Prof. Moore.

"Christianity and Judaism are the only optimistic religions in the world, because in them God is always coming down to men. In all other religions men must climb to God, and they are all fatalistic and gloomy,"—Prof. Moore.

Dr. Bert Wilson, president of Eureka college, presented the report for that institution to the convention yesterday afternoon. Thru the recent endowment campaign, the college gained \$400,000 additional endowment. It has annuity funds of \$63,453. The total endowment of the college is now \$625,712.83. A total of 250 students were enrolled last year, and this term the number is expected to reach 300.

This is the Golden jubilee of the Christian Women's Board of Missions, and yesterday afternoon Mrs. Edith C. Hunter presented the fifty-fifth annual report to the convention. Up to June 30, 82 new societies have been organized by the board during the fiscal year. Since that date 18 additional new societies have been formed. The total membership is now 15,962.

John L. Gunn of Arcola, president of the convention, handles the program efficiently, and is bringing the sessions thru according to schedule and then some.

Rev. M. L. Pontius, pastor of the local church, is untiring in his efforts to make the stay of the visitors a pleasant one. He has the assistance of an able corps of members of the church, who are giving their time fully to the convention details.

## REV. STAHL IN FIRST CONVENTION SERMON

Quincy Pastor Tells Delegates That Time Has Come for Church to Take a Stand on War and Prohibition.

The first sermon on the program of the state convention of Disciples of Christ in session here was delivered yesterday morning by Rev. A. F. Stahl, pastor of the Christian church at Quincy. The speaker took for his text two words from the sayings of Jesus, "Mine hour." He emphasized the fact that the Master knew when his hour was come and made full use of the opportunities of that hour to glorify himself and perfect the plan of salvation. He spoke of the incident in which Christ told the mob who were seeking His life, "This is your hour," and showed that when Christ or the church says this, it means the powers of darkness are to have sway, but when both say, "mine hour," it means that there is work to be done in the cause of Christianity. Rev. Stahl said in part:

"I believe the present day is the hour of the church. As long as we say to the forces of evil, 'This is your hour,' just so long will the church take second place. We ought to be finding out and declaring the attitude of Jesus on the big questions which confront us today. What about Jesus and war, Jesus and temperance, Jesus and the care of the children?"

"This is the hour when the church should take a stand of hostility toward war, yet the church will not do it. The church should protest against the thing which the country is about to do and will do next Friday, the act of marshalling the forces of war just when the nations are about to put in force a document designed to bring peace to Europe. It is time the church took a stand on temperance, also some of the members are drinking more than they should and are violating the law occasionally. The sheriff of my county is a member of my church, and yet the people are criticizing him because they say he winks at bootlegging and receives money for protection he gives to law violators. I have told him indirectly from the pulpit without calling his name, to take his letter from the church, tho I have not yet requested him personally to do so. On the other hand, the chief of police is also a member of my church, and he stands openly for law enforcement and is praised for his action in line with his stand."

"The church must also follow Jesus' teaching and care for its children. I and heartily in favor of religious education, and the great program which must be undertaken to make it a reality."

CHRISTIAN ENDEAVOR  
BANQUET A SUCCESS

More Than 200 Present at Celebration of Young People—Three Speakers on Program.

The Christian Endeavor banquet, which proved to be an attractive feature of the convention program of the Disciples of Christ was held at Central Christian church last evening. Nearly 200 persons were in attendance. The ladies of the church served an elaborate banquet and the room was decorated in streamers and ribbons. Miss Lucy Pontius and Miss Adelaide McCarthy were the local committee in charge of arrangements for the banquet.

The early part of the program was enlivened by the young people with songs and cheers for the various leaders, who were called upon to stand and receive the applause. A large delegation of Springfield Endeavors was present and sat in a body. Grace was said by Miss Genevieve Harris, secretary of the Indiana Christian Endeavor society.

Miss Leta C. Davis of Bloomington was toastmistress for the occasion. The program consisted of three addresses and in addition Miss Lois Harney gave two vocal numbers with Miss Helen Harney as accompanist.

The theme for the evening was based on three vital words of the master. The word "Come" was discussed by Neal Crawford of Cooksville. Albert Bradbury of Fisher, Ill. spoke on the word "Tarry," and the final address of the evening was given by Rev. Howard Detwiler of Peoria on the word "Go."

CHICKEN FRY AT  
ASBURY SUCCESS

More than 450 persons were served at the chicken and fish fry given by the Ladies' Aid of Asbury church Tuesday evening. Serving began at 5:00 o'clock and continued for several hours, and such arrangements had been made by the committees in charge that the great crowd was handled without undue delay or confusion.

Mrs. Rex Ransom is the president of the Aid Society and was in general charge of the arrangements. She was ably assisted by the members and various others.

Chickens to the number of 125 and 100 pounds of Mississippi channel cat fish had been prepared for the supper and other good things to eat were furnished in liberal quantity.

During the evening County Agent G. B. Kendall showed a reel of pictures dealing with the eradication of animal tuberculosis and another on forest preservation.

## DISCIPLES WORK IN STATE UNIVERSITY

Convention Visitors See Exhibit And Hear Reports of Church's Activities Among Students.

One of the most interesting exhibits at the convention of Disciples of Christ is that of the Illinois Foundation society at Urbana, which occupies one of the booths in Central church. The exhibit is in charge of Mrs. Mabel R. Carlock, student secretary of the church in University Place, which is the work of the denomination at the state university is in charge of 800 student members of the church, which has also a local membership. The exhibit contains many posters, made by the students to advertise church affairs. Several of these posters were made by foreign students, of which there are about ten in the church.

Dr. Charles M. Thompson, Dean of the University School of Commerce, delivered an address yesterday afternoon before the convention on "Religion and the State University," in which he told something of the work which is being done by the Illinois Foundation society. There are two sides to this work, one the provision of courses in religious education, and the other the service rendered thru the church to the young people who attend the university. Dean Thompson has recently been chosen treasurer of the Foundation, and is vitally interested in the young men and women who come under his care, in an effort to keep them in touch with the religious life of the university church.

Dean Thompson prophesied the founding of a great Union College of Religion at the university, which he said would come when some man in Illinois would be willing to give ten million dollars to the project.

Dr. Stephen E. Fisher, president of the Foundation, gave a short report of the work and introduced Miss Minor, the field worker, who told of her talks in spreading the information as to the university work among the churches of the state. Mrs. Carlock also made a brief talk to the convention. As soon as the university opens each fall, an effort is made to get the students interested in the Foundation's religious education courses which receive university credit. Then there is the social life, consisting of registration socials, the Fall Reception, open houses, various kinds of parties, teas for the girls, and special social gatherings for the holidays that occur during the year. The university church worked out an extensive summer calendar, which kept up the interest among the hundreds of students who attended the summer school.

MISS BULLARD IN  
PRILLIANT RECITAL

A delightful recital was given by Miss Virginia Bullard at her home at 3 Duncan Place, Tuesday evening, for the benefit of the State Street Presbyterian church building fund. An appreciative audience was present at the recital of the program, which was composed of the most varied and interesting variety.

The first group of Debussy offered a very interesting variety. The brilliant prelude in A Minor and the singing quality of Clair de Lune, was followed by the very descriptive and technically brilliant Gardens in the Rain.

Special pleasure was found in the two waltzes of Brahms, in the second group, and the Humoresque of Rachmaninoff, which is so seldom played. Miss Bullard charmingly responded to an encore with a waltz by Schuetz.

The Valse Eccequique and Barcolle, composed by Spencer, of Adrian, Michigan, were of special interest on the program. The last number was an adaptation from an old fiddler tune, arranged by Grainger, which was very brilliantly played. Miss Bullard's closing encore was Schon Rosmarin, by Kreisler.

Miss Bullard has not appeared before a Jacksonville audience for several years. Since her last appearance, she has studied in Chicago with Alexander Raab, of the Musical College, and Edgar Nelson, of Bush Conservatory. Miss Bullard leaves the latter part of the week to take up her work as instructor of piano on the Conservatory faculty of Adrian College, in Adrian, Michigan.

# **KLAN CANDIDATES IN LEAD IN COLORADO**

DENVER, Colo., Sept. 9. (AP)—With 124 precincts of the states 1,492 reported up to 11:15 o'clock tonight, Rice W. Means, of Denver, supported by the Ku Klux Klan was leading in the Republican primary race for the short term in the United States senate.

For the Democratic nomination for United States Senator, Morrison Shafroth was making a run-away race with Benjamin J. Hilliard of Denver, on the face of returns from sixty nine precincts. Shafroth had 1,259 votes, while Hilliard had but 425.

Judge Clarence J. Morley of Denver, the Ku Klux Klan candidate for governor was leading Robert F. Rockwell of Paonia, on the face of returns from 131 precincts. Morley had 6,282 votes to 5,231 from Rockwell. Earl Cooley of Trinidad, who made a fight on the klan had only 372 votes, and was running a poor third.

# **REPUBLICANS HAVE BIG MAINE PLURALITY**

PORTLAND, Me. Sept. 9 (AP)—Maine Republicans rolled up a plurality of 50,000 votes in the United States senatorial contest and a plurality of 36,000 in electing a Republican governor, continued tabulation of unofficial returns from yesterday's election indicated today. Figures showed that Senator Burt M. Fernald had been elected with a total of 147,222 votes against 97,059 for his Democratic opponent, Fulton J. Redman. In the contest for governor, State Senator Ralph O. Brewster Republican, polled 143,942 against a total of 107,908 for William R. Pattangall, former state attorney general.

# **CHAPIN**

Mrs. Alpha Anderson was hostess to the Chapin Woman's club Tuesday afternoon. This was the first meeting after the summer vacation and much interest was manifested. The roll call was "Why I Am a Republican or a Democrat." Mrs. C. F. Duckett read an excellent paper on "American Inventions." Mrs. J. F. Burnham's paper on the "Republican Nominee" was followed by a spirited discussion. At the business session it was decided to hold a bakery and market on Saturday, September 27th. In charge of the market will be Mrs. Phoebe Scott, Mrs. Gustav Onken and Mrs. C. F. Duckett. A piano solo by Miss Isabelle Fox, "Prelude" by Rachinoff was much enjoyed. Delicious refreshments were served by the hostess. Guests were: Mrs. H. C. Anderson, Mrs. Clyde Williams, Mrs. Charles Nergenah, Miss Effie Markham, Miss Isabelle Fox, Miss Francis Brooks and Miss Ruth Drable.

The Gleaners of the Christian church Sunday school held an all day meeting at the country home of their teacher, Mrs. James H. Hutcheson on Tuesday. A picnic dinner was served at noon.

Miss Mildred Anderson has accepted a position with the Farm Supply company in Jacksonville, commencing her work Monday, Sept. 8th.

Miss Amy Onken was a business visitor in Decatur Monday.

Mr. and Mrs. John Boddy of the Markham neighborhood were callers at the home of Mr. and Mrs. E. H. Nienbueser Monday evening, also at the M. P. parsonage.

The Chapin Social club entertained informally Tuesday afternoon at the home of Mrs. Elsie Adams honoring Miss Ruth Moody, an out of town member who is a guest in Chapin this week. The afternoon was spent with games, contests, music and a general good time. An important feature was the serving of a delicious miscellaneous luncheon, each member having furnished one article of food. Those present besides the guest of honor were: Mrs. Chester Williams, Mrs. Henry Vortman, Mrs. Fred LaKamp, Mrs. Frank Brockhouse, Mrs. Opal Blair, Mrs. Frank Calloway, Mrs. Harold Jewsbury, Mrs. Elsie Adams, Miss Mayne Hegarty, Miss Amy Moody, Miss Mary Alderson, Miss Freda LaKamp and Miss Esther Moody as a guest of the club.

# **MRS. MARY NOLTE DIES AT HOME IN WEST**

A Humbolt, (Kansas) paper recently received here by S. A. Fairbank, tells of the death of Mrs. Mary D. Nolte, who for many years was a resident of Jacksonville. The family home was on West College avenue and Mrs. Nolte during her residence here was a member of the Congregational church.

Th notice of her death from the western paper is as follows:

"Mrs. Mary Dunbaugh Nolte passed away recently at her home in Humboldt, Kans., in her eighty-sixth year. Mrs. Nolte, with her family, came to Humboldt in 1877, and but for an interval of several years has been a resident ever since. Her brother, the late Edward P. Dunbaugh, is remembered by a number of Humboldt people.

"The burial services were held at her home on Sunday afternoon, conducted by Dr. Sowerby, and the interment was in Mount Hope cemetery beside her husband, George H. Nolte, and her daughter, Clara Nolte Smith.

"Mrs. Nolte's brother, George J. Dunbaugh, of Chicago, with his son and daughter, and her nephew, Charles P. Dunbaugh, also of Chicago, and her son nad daughter, Mr. and Mrs. A. C. Hoke, of Parsons, were here for the funeral services. Mrs. Nolte's youngest brother, Frank M. Dunbaugh, is at present in Europe."

# **GOVERNOR SMALL AT THE INTER-STATE FAIR**

The reception that Governor Small received when he reached the fair grounds yesterday was most cordial. It seemed that every person in the grandstand was applauding him. Judge Grove in introducing him made a happy speech, lauding the Governor and his hard roads.

The Governor only spoke a half hour, urging the people to vote for the \$100,000,000 bond issue and pledging himself, if elected to see that good roads will be built over the state. There will be no partiality as to sections of the country shown. He was in good voice yesterday and is in the pink of health, and is talking to the people of the state about the roads and the bond issue.

The Governor has set his heart on paying Illinois from auto funds so as not to cause any taxation in the matter and still have Illinois leader in good roads. He is doing it and will do it. He will be elected by an overwhelming majority, and so will Coolidge, for while the straw vote yesterday showed that LaFollette will run ahead of Davis in this district, yet Coolidge has a large majority over all. Governor Small will sweep this section of the state clean. Those who have been predicting that LaFollette would run close to Coolidge were disappointed in the vote yesterday. This district is and will remain Republican.—Carroll County Mirror—Democrat, Tuesday, Sept. 2.

# **HOWITZER COMPANY SEEKS ONE DAY VOLUNTEERS**

An effort is to be made to bring the local howitzer company up to war strength, 193 men, for one day only. It has been requested that the company be filled up with volunteers to war strength for this one day only, in a good showing in the Defense Day parade scheduled for Friday night.

There is no obligation of any sort on the men who enlist for this one day, other than to join the regular troops in the parade. Capt. Wesley James is hopeful that enough young men will volunteer to bring the company's roll up to the designated number. Any young man willing to aid in this way is asked to leave his name at the Chamber of Commerce offices.

# **S. S. L. BOARD IN REGULAR SESSION**

First Meeting in Two Months Held by Social Service League Board of Directors Tuesday Night

The Social Service League board held a meeting Tuesday evening in the league rooms. This was the first meeting which the board has held in two months and various matters of business came up for consideration.

Plans were talked over for the financial campaign and annual meeting which are scheduled for next month. The campaign is to be put on the first week of October and the annual meeting will be held on Oct. 14.

In submitting her report, Miss Eva Viers, the league superintendent, explained that there has been an increase of probation work over the winter months and while not so many new cases of need have been reported among families, there are many people out of work and the transient problem is more serious than has been true for some time.

Some facts from the superintendent's report covering the two months are given below:

Probation—Number of new cases, 4; active cases, 26; court hearings, 3; cases closed, 1.

Visits for month of July—Visits to

families, 84; reference calls, 74; office interviews, applications, 106; office interviews, consultations, 46.

## Social and Club Events

### Mrs. Floeth Hostess to Mission Society

Presenting an interesting and well prepared program on the subject of "National Missions," the Missionary Society of the State Street Presbyterian church met for regular session yesterday afternoon, at the home of Mrs. William Floeth, 523 West College avenue.

Three divisions of the subject were treated, with Mrs. Adams telling of the mission work done among the Mexicans in America; Mrs. Marbach reviewed the mission work among the American negroes, and Mrs. Carl Gordon telling of the work that is carried on by the missions among the mountaineers.

The afternoon concluded with a social hour, when refreshments were served.

The Mound Woman's club will hold a meeting with Mrs. Harry Kitcher Thursday afternoon at 2:30 o'clock. Mrs. Frank Mawson and Mrs. William K. Ranson being the assistant hostesses.

**WOMAN'S COLLEGE NOTES**  
Three new class rooms, situated in the east wing of the main building, which have been remodeled from the college shops, are nearing completion at Woman's College, and will be used for the classes in education, and Freshman English. The classrooms are among the best lighted and most modern in all the building, and will accommodate large numbers of students. New brick shops have been erected just back of the gymnasium, as well as a long frame garage, which will be used for the storage of the campus equipment, and as the college work shops. These building additions lessen the fire hazard at the college.

A new refrigerating plant has been installed, and a large, two-compartment ice box, cooled by ammonia pipes, built. The College Social room has undergone complete remodeling; the floor leveled and laid with hard wood, and the walls retinted. Several rows of stationary chairs occupy the southern end of the room, and the remainder will be fitted with new furnishings, and window drapes. The remodeling of the Social room is being done under the auspices of the Junior Class.

The work in the Department of Physical Education at the Woman's College will be especially interesting this year. The policy of the school for a number of years has been to pay considerable attention to the health of the students. This year there are three full time instructors in this Department, and three part-time instructors. Every effort is made to conserve as well as improve the health and vigor of the student body.

Portable bleachers are being constructed for the tennis and hockey games and other field sports. The swimming-pool will be used even more extensively this year than previously; it is expected to begin work in the pool within a week or two after college opens.

The first faculty meeting will be held Saturday evening in the new Social Room.

The family of Dr. J. H. Spencer of Murrayville will reside this year at 132 Diamond Court. Dr. Spencer's son will be a student at Illinois college.

## Menus for a Family

Tested by  SISTER MARY

**Breakfast**—Fresh pears, ready prepared cereal, with thin cream, crisp bacon, toast, cocoa, coffee.

**Luncheon**—Puree of carrots, whole wheat bread and cheese sandwich, prune jelly, tea.

**Dinner**—Broiled Salisbury steak, mashed potatoes, creamed corn, tomato stuffed with spinach, whole wheat bread and butter, new honey, chilled watermelon.

If the four-year-old has his orange juice half an hour before breakfast he will begin with his cereal and not miss the pears.

If you grated the corn for creaming the youngest may partake with the rest. Otherwise corn is difficult to digest and should not be given to children under school age.

The juice of the watermelon won't hurt the "baby" but he won't be able to digest the fruit itself.

The crushed seedless pulp of a perfectly ripe fresh tomato should be combined with spinach and served without dressing for the juniors.

**Puree of Carrots**  
Two cups diced carrots, 1 cup whole milk, 1 tablespoon butter, 1 teaspoon salt, 1 teaspoon sugar, paprika.

Wash and scrape carrots and cut in dice. Cook in boiling water to prevent burning until tender.

**Prune Jelly**  
One-half pound prunes, 3 cups water, 3 cup sugar, 2-inch piece stick cinnamon, 1 cup boiling water, 4 tablespoons cornstarch, juice of 1 lemon, few grains salt.

Wash prunes well through several waters. Let stand two hours in cold water and cook in same water until tender but not mushy. Remove meat from stones. Return prunes to water in which they were cooked, add sugar, cinnamon and boiling water and simmer 15 minutes.

Make a smooth thin paste with the cornstarch and as much cold water as necessary and stir into the boiling prune mixture. Cook, stirring to prevent burning for 10 minutes. Remove stick of cinnamon, add lemon juice and turn into a mold. Let stand until cold, then put in the ice box. Let stand one or two hours. Serve with whipped cream.

This column has been indebted to Mr. C. E. Rice of Arenzville, for several interesting documents and much information.

Among others was the following: "I noticed in the Journal that some of documents have been found in possession of Mr. Cooper of Concord. 'Perhaps I can give you some interesting items: A note written in 1852 by Jerry Masterson saying that he attended school taught by Miss Sue Ellis. Miss Ellis is living in Jacksonville at the present time. The note is in possession of Miss Ann Matthews who also was one of Miss Ellis' pupils in the same school, six miles northeast of Mercedia.

"Also, in 1759, Samuel Johnson, an English author, wrote 'Rasselas, a Prince of Abyssinia,' to earn money to pay his mother's funeral expenses. (Enc. Brit.) The book was written in 1759 and the publishers paid him for the work one hundred pounds sterling.

"A few days ago I came into possession of what is likely one of the first copies of this book, as on the fly leaf appears the name of the publishers and the date of 1759.

"Also I have found a copy of The Three Brothers, (author unknown), published in 1792.

"These two books have been in possession of the Abbott family since Feb. 12, 1820, and were brought from England to this locality when this place was in its pioneer days.

## KLANTAQUA ENDS THREE-DAY SESSION

Rev. C. C. Crawford of St. Louis Made Final Address Last Night in Explanation of Klan Principles

The Klantaqua closed its three day session with the program Tuesday night, when Rev. C. C. Crawford, pastor of the First Christian church of St. Louis, Mo., addressed the large audience which gathered at the tent. Rev. Mr. Crawford spoke on the fundamental principles of the Klan, under the four heads, "What the Klan is Not," "What the Klan is," "Enemies of the Klan," and "Secrecy and Regalia of the Klan." Preceding the lecture, the Gypsy Serenaders, entertainers of the Klantaqua system, gave a splendid novelty program.

"Among the things that the Ku Klux Klan is not," Rev. Crawford stated, "are these: It is not a lodge, it is more; it is a great nation wide movement, standing for the highest principles of Americanism. Again, it is not a political party. It does not desire to affiliate with specified parties, but rather places the issue above the party, voting first as an American citizen, and second as a party member, and as its aim the filling of the offices with men who will uphold the civil laws. The Ku Klux Klan is not a church or a substitute for a church, but seeks to be a helper to the protestant church of the United States.

In speaking of "What the Klan is," Rev. Crawford outlined the platform on which it is based, as believing in the tenets of the Christian religion, white supremacy; the closer relationship of pure Americanism, to be developed by adhering to the principle, the Klan has outlined socially, politically, vocationally and industrially, the separation of the State and the Church, in that the citizen shall owe his first allegiance to the United States of America, regardless of any other power. "The Klan is opposed to any organization which is against the principles of the constitution, which would substitute anarchy for law and order," Rev. Crawford emphasized in outlining the Klan platform.

"The enemies of the Klan include the bodies of criminals, gangsters, bootleggers, and professional politicians who work against the maintenance of the laws of the country. But the most dangerous of the Klan enemies is its Protestant critic who misunderstands the principles for which it stands."

Rev. Crawford concluded his address with the explanation of the secrecy and regalia of the Klan. The Klan is only secret in its membership, in order to carry on its principals of law and order. The regalia is a fraternal robe, which is necessary in order to maintain its purpose of secret identity.

The speaker was scathing in his denunciation of newspapers which he said seldom give the Klan a fair deal. He said that if there is ever a chance to make it appear that Klansmen have engaged in any form of mobbing that the story is spread all over the front page.

## CIRCUS DAY IS FINALLY HERE

Trains Carrying Big Hagenbeck-Wallace Shows to Arrive Early This Morning from Carlville—Will Spread Canvas on Stout Lot

Today is the day when mothers will have no difficulty in getting Danny or Freddie, Edna or Dorothy out of their little beds. Of course there is a reason, for early this morning the three trains bearing the Carl Hagenbeck-Wallace Circus will pull into the railroad yards and today is circus day. Every one knows that is a combination of July Fourth, Christmas, New Year's and a Birthday of Young America.

Just as soon as the first section arrives in the city the work of detrain-ing and unloading will start and the tents will be pitched on the circus grounds at the Stout lots. There the big tops will spread over acres and the band will play, the air culiope toot, the lions will roar and the scent of the "hot-dog" will be in the air. Spangled folks, funny clowns, elephants, horses and everything are among us today.

Little Tommy, unless he visits the railroad yards or hurries to the circus grounds will get his first "peep" at the circus, when the street parade of more than a mile in length covers the downtown streets at 11 o'clock. Scores of pretty girls, performers from the Far East; standard acts from Europe and America, as well as hundreds of fine Kentucky horses and prize-winning Belgian sires, will appear in the procession, in which it is claimed more open dens of wild animals will be exhibited than ever before.

Two performances are scheduled, the afternoon at 2 o'clock and the night show at 8 p.m. The doors will open an hour earlier so that the patrons can inspect the wonderful Hagenbeck menagerie, which contains a specimen of every animal living today. The zoo is said to be worth close to a half million dollars.

Among the featured performers in the big show are the Orrin Davenport Troupe of Equestrians; the Australian Woodchoppers, the Canton Chinese, the trained wild animal numbers and the English fox hunt. A total of 200 performers, 100 wild animal actors, 100 domestic animals and fifty clowns participate in the program, which will be presented in three rings, a steel arena and on the hippodrome track.

The advance seat sale will be at Armstrong's Drug Store.

## PRETTY WEDDING AT HOPPER HOME

Young People From Missouri United in Marriage Here.

A pretty home wedding was solemnized at the home of J. H. Hopper, 503 North Prairie street yesterday afternoon, when Miss Florence Smith, of Fulton, Mo., who has been a guest at the Hopper home for the past two weeks, became the bride of Mr. Joseph Holt, of Auxvasse, Mo. Rev. W. H. Marbach officiated at the ceremony, which was witnessed by only the immediate members of the Hopper family.

The wedding plans were simply carried out, with the ceremony taking place against an open fire-place, decorated effectively with fern, astor and autumn flowers. Mr. and Mrs. Holt left immediately for St. Louis, where they will be for a short wedding trip, going from there to Auxvasse, where the groom is engaged in business, and where they will make their home.

Miss Frances Cobb to Become Bride of William Wallbaum in Ceremony This Morning—Will Reside Near Alexander.

Miss Frances Cobb of this city and William Wallbaum of east of the city will be united in marriage at the Church of Our Savior at 7 o'clock this morning. Rev. G. E. Hobbs will officiate and the attendants will be the groom's sister, Miss Marie Wallbaum, and Charles H. Cobb, brother of the bride.

Only the immediate relatives and friends of the young people will witness the ceremony, which will be followed by a wedding breakfast at the home of the groom's parents east of the city. The bride is a daughter of Mr. and Mrs. Charles Cobb of 898 Rott street. She attended the local high school and is one of the popular young women of the city.

## COL. SPRAGUE TO SPEAK HERE THURSDAY

Announcement was made yesterday that Col. Albert A. Sprague of Chicago, Democratic candidate for United States senator, is to visit Jacksonville Thursday evening of this week and will make a public address. It was not known until yesterday that Col. Sprague could come Thursday and plans for the meeting are therefore being somewhat hastily made.

Col. Sprague will probably speak at the court house at seven o'clock Thursday night, following a supper which is to be served at the Peacock Inn. Members of the county committee have the arrangements for the meeting well in hand and expect to have a large audience present to hear Col. Sprague's address.

## ALL IN READINESS FOR M. E. CONFERENCE

Conference Program to Begin Today in First M. E. Church at Bloomington—Epworth League Anniversary Session Held Last Night.

(By C. R. Morrison)

Bloomington, Ill., Sept. 9. (Special to Journal)—The day before roll call, at an annual conference, is a busy one for both host and guests. All the highways leading to the county seat of McLean county were full of incoming automobiles, for the two conferences, Illinois and Central Illinois, having 700 members, beside the laity that were in easy reach of the city were in evidence. About one-hundred young preachers in the study classes of both conferences and the two groups of examiners in charge were busy all day with the finals, making ready for reports.

## Epworth League Anniversary

Both presidents of the conference league organization had sent out special letters announcing a joint session of the young people for Tuesday evening, in the gymnasium of the Illinois Wesleyan University and urging all leaguers within 50 miles to take advantage of the opportunity to be present, if only for that one session. Rev. E. G. Sandmeyer, president of the Illinois Conference League, and Rev. L. B. Haggard, president of the Central Illinois Conference League, divided the honors of chairmanship and conductor of the devotional exercises. The speaker of the evening was Rev. Dr. C. E. Guthrie, corresponding secretary of the league at large. All who have ever heard Dr. Guthrie in his chosen and choice field of leadership among the young people of the church and the day will appreciate the keen interest taken by the great company that heard that evening. The grouping of all educational boards and organization under one head, (of education), with Dr. Bovard former leader of the Sunday School Board, points the way for a larger activity of Sunday School teen age young people with the formal and well organized Epworth League. So these various departments are under the more complete organization, headed by Dr. Bovard. The young people, whether in League or Sunday School or College have the inspiration of special as well as general leadership. Dr. Guthrie has had eight years of supervision in this special task and rose to the occasion in a masterful way.

## News and Notes

Hardly have greetings been exchanged and inquiries as to health and reports been answered, then comes the inevitable: "How goes the battle, brother?" and "Are you going back?" The answer to this is a positive: "Yes," qualified by, "If, for no other reason than to pack up." More generally it is an evasive answer, referring questioner to the Bishop and his cabinet advisors. The usual number of retirements are already in the hands of the boards of conference claimants or preachers aid society officials, or should be by August 1st, so as to be considered in the distribution of funds. "Where is the next conference to be held?" Like the "doughboy" at the first encampment who asks: "Where do we go to from here?" The conference hardly gets down to business when the query is asked, "What next?"

Mattoon is in the field asking for the next session, where it was held in 1874 when Bishop Tarter presided and in 1909, when Bishop Goodsell presided. Now under the pastorate of Rev. C. F. Baker, well known in Jacksonville and Carrollton, when pastorate were served the request comes for a return to Mattoon, of the conference next year. Beardstown has taken a unique and effective method of presenting its claims by circular letter, when in the request is made that that city of 8,000 people and a Methodist church of nearly 1400 members under the pastorate of G. L. Lash, should have the privilege of entertaining the conferences in 1925. If Beardstown should be selected, it is likely that the year following Lincoln which has made a beginning for a new and modern church building by two gifts from elect sisters in membership totaling of \$15,000 each, will be glad to keep open house for the conference, Rev. A. R. Grummon, pastor. Other places may be suggested for the honor.

## Appointments

Early in the session it is not safe to prophesy about appointments but rumors begin to circulate and the checker-board is in place, of men and churches, and an effort made to fix appointments. Rev. B. F. Shipp, it is reported, will not ask for an appointment in the regular work this coming year. His successful pastorate at Tuscola for three years and his previous superintendency of the Bloomington district for six years has given him an enviable standing in conference relations. Other days will bring other problems, and surprises.

## LONG TIME COUNTY RESIDENT DIES

George A. Johnson Passed Away Tuesday Afternoon—A Veteran Builder.

George A. Johnson, a long time resident of Morgan county, died at the home of his daughter, Mrs. James H. Dobyns, near Orleans at 1 o'clock yesterday afternoon. The deceased was born May 23, 1840, at the old Filson homestead. He grew to manhood in the Orleans neighborhood and there in the spring of 1864 was married to Miss Emma Ann Shepherd.

Four children were born to them, Ida and William deceased, Walter and Mrs. Ella Johnson Dobyns surviving. Mr. Johnson spent all of the mature years of his life as a carpenter and he was rightly called the pioneer barn builder of Morgan county. Many structures in all parts of the county show the evidence of his good workmanship.

Mr. Johnson was a man of sturdy character and was highly esteemed by the many people who came to know him thru the years of his long life.

The funeral will be held Thursday afternoon at 2 o'clock with interment in Pisgah cemetery.

## SCOUTS TO TAKE PART IN PARADE

Special Call Issued For All Scouts to Participate in Defense Day Program.

A special call is issued for all Boy Scouts of the city to participate in the Defense Day parade Friday evening. It is requested that all members appear at Scout headquarters not later than 7 o'clock Friday evening, so that the organization may make the best possible showing in the interest of our country. Parents are requested by the Scout Executive to lend their aid in getting their boys to headquarters in plenty of time for the formation. Scoutmasters should accompany their troops, if at all possible to attend.

Captain James, chairman of the parade committee, announces that arrangements are all complete and from all indications the parade Friday evening will be an inspiring sight.

## CIRCUS PARADE TO FOLLOW NEW ROUTE

The Hagenbeck-Wallace circus is coming to Jacksonville from Carlville this morning over the C. & A. and is expected to arrive at an early hour. The trains will move from Carlville to Carrollton over the C. & A. branch line.

On account of paving work in progress on some streets, it has been advisable for Chief of Police Kiloran to work out a parade route for the circus. The parade is scheduled to move at 11 o'clock.

The canvas will be stretched on the Stout lot and the parade will move south from the lot on Church street, to West College street, east to South Main street, north on Main street to the square thence east around the east and north sides of the square to West State street and along West State street to either West or Church street, and back to the show grounds.

As indicated, this route is different from that usually followed because of paving improvements in progress.

## DEAN AUSTIN LEARNS OF BROTHER'S DEATH

Miss Olive Austin, Dean of the Illinois Women's college, left Jacksonville yesterday afternoon for Delaware, Ohio, where she was called by the death of her brother, Professor Cyrus Austin, which occurred Tuesday morning, at Columbus, Ohio, after a prolonged illness of more than a year's duration.

Professor Austin was one of the most prominent figures in educational activities in Ohio, having been associated with the Ohio Wesleyan University as a member of the faculty, for more than forty-five years, during which time he held the position of Professor of Mathematics, Dean of Monnette Hall, and in recent years, has served as Vice-President of the University. The new \$400,000 women's dormitory erected at the Wesleyan University last year, bears the name of Austin Hall in honor of Professor Austin.

Funeral services for Professor Austin will be held Thursday afternoon, in Delaware.

## SCHOOL CHILDREN TO SEE CIRCUS PARADE

The public schools of Jacksonville will be dismissed for a short time this morning in order that the pupils may witness the parade of the Hagenbeck-Wallace Circus which is scheduled to take place at 11:00 o'clock this morning. The school sessions will convene as usual this morning, and regular classes will be held up to the time for the parade to form. Superintendent Shafer announces that the dismissal will be made in plenty of time for the students to obtain advantageous points of view to witness the parade. The afternoon school periods will be observed as usual.

## BISHOP GRIFFIN IS WELCOMED IN CITY

Dignitary Paid Official Visit to Church of Our Savior Tuesday—Great Audience Attended Ceremonial and Church Service.

Very Rev. James E. Griffin, bishop of the Springfield diocese, of the Catholic church, paid a visit to Jacksonville yesterday and a notable program was carried out in his honor. At the parish house where the bishop and visiting priests assembled at 9 o'clock, Mayor E. E. Crabtree speaking on behalf of the city of Jacksonville, extended a message of welcome to which Bishop Griffin made reply.

Half an hour later solemn pontifical mass was celebrated by Bishop Griffin, assisted by Very Rev. F. F. Formaz, Very Rev. William Costello, Rev. A. J. Smith, deacon of honor, Rev. J. J. Donaghy and Rev. G. E. Hobbs, deacon and sub-deacon.

The combined choir of the church furnished the music under the direction of Miss Margaret Ring. The great auditorium of the church was filled to overflowing. At the conclusion of the mass Bishop Griffin made a brief address in which he spoke particularly upon the educational situation, declaring that the evidences of the times show unmistakably the need and the demand for more religion in education.

Among visiting priests were Rev. Father Lucius, Alexander; Rev. Father O'Mullane, Winchester; Rev. Father George Fuller and M. A. Parentt, Springfield; Rev. A. J. Smith, Franklin.

The ceremony of welcome on this, the first official visit of the bishop to Jacksonville, took place on the veranda of the parish house. The veranda had been decorated with the national colors and a large company assembled about in the yard as the brief program was carried out.

## Program of Welcome

Mayor Crabtree, spoke of the pleasure which it gave the citizenship of Jacksonville to welcome this dignitary of the church, and referred to the fine spirit of co-operation that has existed between the Catholic and Protestant residents of Jacksonville in many enterprises. This spirit of co-operation, he said, was especially evident in the war time, but had been shown in many ways since. The mayor made special reference to the support and aid given him in war time activities by Very Rev. Father Formaz as the pastor of the Church of Our Savior.

Bishop Griffin before assuming his present duties and removing to Springfield, was a resident of Joliet and in his opening remarks made facetious reference to the fact that both Jacksonville and Joliet had state institutions.

The visiting bishop, commenting upon Mayor Crabtree's words said that he was glad to know that the people of his church were uniting in supporting good causes and voiced his expectation that this spirit will continue. He said further that the Catholic church believes in law and order and has the highest respect for these two fundamental things in society.

The occasion was of unusual interest to members of the church and community because this was Bishop Griffin's first visit. The address following mass was given with the closest attention and the bishop spoke in a kindly and tolerant way as he laid emphasis upon the need of religious education and as he indicated his belief that criticisms of the church's method in educational work are based upon failure to understand the motives behind the work.

In the course of his address Bishop Griffin spoke in part as follows:

"There is a direct trend these days toward more religion in education. Our schools are established for the glory of God and for the formation of Christian character. Look back into the history of France and you will find that in the most turbulent times that the first thing attacked was the system of schools.

## God and Bolshevism.

In more recent years in Russia in the rise of Bolshevism, the effort first of all was to get rid of God and to separate from the schools any thought of religion. Events in Russia are appalling and in the civil strife there at least 1,000,000 people have met death. In our effort to recognize the place of religion in education we have established and maintained schools and colleges and some universities.

## Crowded Schools

"Looking at the matter from another phase, think of the condition that would arise if the 140,000 children in Chicago now attending parochial schools were turned over to the general school system. The records show that even now 100,000 children in Chicago are able to attend the public schools only part of the time because of the inadequate facilities, and portable school houses are used in the effort to help along with the school housing problem.

"What is true in Chicago is true in Brooklyn and New York. Even in Springfield there are 3,000 children in the parochial schools and 10,200 in the public schools. To close our schools would create a difficult situation.

"We believe not only in secular education but further, that there must be more attention given to the religious side. In the early days of the country the relationship between the religious and secular in education was clearly established. Then came Horace Mann and the movement that he represented, which meant the advance of the secular, the separation of the schools from religious instruction. Horace Mann was religious himself and sincere, but I believe he had no idea of the development that would come in the later years because of the elimination of religion from the school system. There never has been a time in America when there was more need for stressing the religious in education—than these times of disregard for law and the attention to those things that are temporal—in these times of indifference to religion.

"We were once told that all that was needed was education, but we have found that this is not true, and that there must be training of the heart as well as the mind. As I said, there is a movement on foot to bring more religion into the school system. This was shown in the Gary plan, where the children were released for a certain period each day for religious education.

## Religion in Schools

"We need more religion in the school, in the home and in general life. Take the recent case in Chicago, which has attracted the attention of the world. These boys were raised amid wealth and with every advantage, all that was left out was

God, and the world knows the result.

"If those who criticize us could only realize the sincerity of our purposes the desire that we have to build up character as well as to train the mind, then indeed would that criticism cease. I am glad indeed to comment upon the work done in an educational way here in Jacksonville. Father Crowe did much. Then in more recent years Father Formaz has sacrificed himself unsparingly as he has carried the load of education along with the general duties of the parish. And I must include a word of praise for that family which has so liberally aided the cause of education.

"Let me speak, too, a good word for all the people of the parish. Remember if you are called upon to make greater sacrifices, that two thousand years ago Christ made sacrifices and as long as you are striving for principles you can lose nothing. We remember that we have only one object and that is the glory of God and the honor of country. I believe the time will come when every denomination will make special preparations for looking after the religious education of its own children, for the times cry out for religion along with general educational training.

**GROCER THANKFUL**  
"I had been sick nearly 20 years with stomach trouble and was slowly starving to death as everything I ate caused terrible gas and pain and my food did not digest. I was reduced to 115 pounds. A friend advised me to take Mayr's Wonderful Remedy about 4 months ago, which I did and now weigh 151 lbs., and can eat anything. I am very thankful for Mayr's Wonderful Remedy. It removes the catarrhal mucus from the intestinal tract, and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded at all Druggists. Adv.

## MARKET BOLSTERED BY MAINE ELECTIONS

**FINANCIAL**  
Date 20 Ind. 20 Rail.  
Tuesday .... 101.07 90.09  
Monday .... 100.30 89.29  
Week ago .... 103.71 91.22  
High 1924 .... 104.13 93.15  
Low 1924 .... 90.27 81.00  
Total sales 872,000 shares.  
Total bond sales \$9,198,000.

**NEW YORK, Sept. 9.**—Stock  
prices bounded upward today in  
what was generally construed as  
a reflection of Wall Street's sat-  
isfaction with the Maine election  
results.

Opening gains in the popular  
industrial and railroad issues  
ranged from one to four and a half  
points and these were fairly well  
maintained despite occasional  
flurries of selling thruout the  
rest of the session.

With a large short interest  
built up in the perpendicular de-  
cline of the large two weeks tech-  
nical conditions also were ripe  
for a rally which was one of the  
sharpest since the unexpected  
declination of an extra dividend  
on U. S. Steel common last fall.

Sales in the first half hour ap-  
proximated one-quarter of a mil-  
lion shares, but the market turned  
dull after the first batch of buy-  
ing orders had been absorbed, the  
day's sales aggregating about  
850,000 shares.

While the removal of political  
uncertainties was undoubtedly  
the principal factor in the ad-  
vance, other contributing influ-  
ences were the increased demand  
for steel products, lower time  
money rates, the proposed segre-  
gation of the coal properties of  
the Pittsburgh and West Virginia  
Railroad and indications that the  
government's \$350,000,000 issue  
of treasury certificates would be  
readily absorbed.

Call money ruled at two per-  
cent.

## Appreciation Expressed By Union of Cigarmakers For the Interest Shown

V. E. T. Smoker, City, Dear Sir:

Answering your very interesting letter of August 25th, addressed to "Secretary Cigarmakers Union." I wish to say that on behalf of the Cigar Industry, employers and employees, we thank you for your kind interest and effective co-operation.

We are sure that you bespeak the feelings of the average smoker. The manufacturers listed below, and their cigarmakers, really wonder why it is that so many of the smoking public has allowed itself to be drawn toward outside cigars, knowing the composition of our own makes. I think you are quite right in suggesting the query: "why aren't Jacksonville cigars advertised individually, the brands made a by-word among smokers?"

Time was when this was done. We have allowed outside manufacturers to usurp our rightful position. The smoking public constantly changes in personnel. If we do not keep on advertising, the changing personnel of smokers are caught by the glittering ads of the outsiders and they soon forget the home fellows.

The reputation of a cigar or anything else cannot be sustained without advertising.

"Remember way back when" Pratt's, Cassell's, Knollenberg's and Newman's brands were advertised extensively? Smokers had the names of their brands memorized, and it was an effort to have someone suggest to them the name of an outside cigar. They sustained the reputation of our cigars.

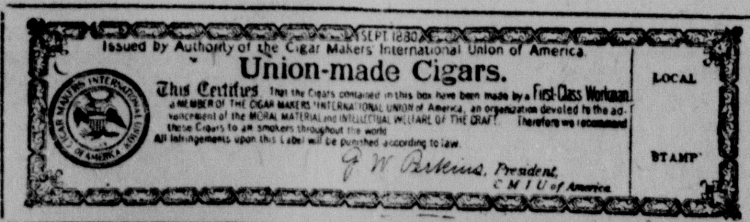

But, time changes. A new generation of smokers comes along. Between the two, so to speak, advertising, as it

was then conducted, ceases, and the outsider took it up, and got the smokers' money. That is why we are now idle so much.

There are 12 manufacturers listed below. Smokers are welcome in their factories to see just how the cigars are made and what goes into them; and we venture the assertion that your conclusions will be duplicated by the average smoker; if he reasons and acts as you did.

From all that has been said it should be plain to smokers that 100 more busy men here is preferable to 100 more busy men in some other city. You had them here—you let them go. All we ask is to help them back by supporting the brands listed below.

Thanking you again, and hoping for your continued favorable support,  
Sincerely yours,  
(Sec.) Cigarmakers Union.

## POST SPADES

Give the Service You Want

THESE extra quality steel "Gold Tip" Post Spades are carefully tempered. Being highly polished, ground thin, with sharp edges and rounded corners they cut through smooth, clean and fast.

The extra-strong handles are hung just right for perfect balance.

Economy is based on what you take out in the way of actual service—not what you put in a post spade in the way of price.

"Gold Tips" are better because they last longer.

## Jack Johnson Can't Refrain From Speeding

Mo'sture in Carburetor of Automobile Like a Shot in the Arm, He Says

(State Register, Sept. 7, 1924.)  
AURORA, Ill., Sept. 6.—Jack Johnson, the former heavy-weight champion, today asked Judge Oliver Strubler of Naperville, to increase his fine and costs for speeding from \$13.95 to \$14.00 to escape the "unlucky 13," and the judge granted his plea. Johnson admitted he was "doing 65 miles an hour" when taken, but said "it was because of the weather." "On a damp day," he said, "like today, you can't hold an automobile in. Just like giving a man a shot in the arm to let damp air into carburetors."
